EDMUND OLIVIER LOSES LIFE IN CHRISTMAS ACCIDENT

A shadow of gloom was cast over the Christmas festivities in Blairmore by a most regrettable accident which occurred at 9 o'clock on Thursday evening, Christmas eve, in which Edmund Olivier, of Coleman, brother of Dr. J. Olivier, of Blairmore, lost his life, and in which G. Rhynas, the well known hockey star of Blairmore, was seriously injured.

A party of seven, including Dr. J. Olivier, Edmund Olivier, of Coleman, his brother, Rhynas and Prudden, of the Blairmore hockey team, and President Herdman McLeod of the Coleman club, and Phillips and McKenzie, also of the Coleman team, had just inspected Blairmore's ice arena, and were returning to Coleman in Dr. Olivier's automobile, the doctor driving.

When at a point in the road just opposite the West End school, a runaway delivery horse, belonging to the Coleman Trading Company, and still hitched to the wagon, came down the road from Coleman at top speed and in spite of all efforts to dodge him, he ran into the auto in which the party was driving, with the terrible result given above.

When the horse came into the glare of the headlight and it was realized that he was running away, Dr. Olivier attempted to escape a collision by turning his car sharply to one side, but the horse swerved toward the car and struck it at an angle of about 45 degrees, landing in the rear seat in which Edmund Olivier, Rhynas, Phillips and McKenzie were sitting.

The impact was so heavy that the shaft of the wagon struck Olivier in the left shoulder and an internal hemorrhage was caused, resulting in his death at 2:30 Sunday morning.

The injuries sustained by Rhynas, while not necessarily preventing him from going to his room for several weeks. An X-ray examination of his thigh bone shows a bad fracture running straight down the bone for some distance, and then running crosswise through the shell of the bone. He is progressing as well as could be expected.

Other members of the party were not seriously injured, but all received a terrible shaking-up. It seems almost miraculous that more of the party were not severely injured, as the horse came at such terrific speed and was still hitched to the delivery wagon when the collision occurred.

A jury was summoned by Coroner Pinkney to view the scene of the col-

lision and to investigate the circumstances. After making a thorough inspection of the scene and viewing the body of the deceased, the jury adjourned until Wednesday, January 4, at 2 p.m., at which time an inquest will be conducted. The jury consists of W. A. Henderson, chairman; W. H. Chappell, Jr., W. J. Bartlett, R. W. H. Pinkney, L. Dutil and M. Belocky.

The funeral of the late Edmund Olivier took place on Wednesday at 10 a.m., from the residence of his brother, corner of State Street and Eighth Avenue. A Requiem High Mass was sung at St. Anne's Catholic church by his Coleman pastor, the Rev. Father McCormick, P.P. After the Mass the final absolution was read by Rev. Father Cosman. Interment took place at the Blairmore Catholic cemetery, where Rev. Father Cosman officiated and read prayers at the grave, assisted by Father McCormick. A very large number of friends of deceased and Dr. Olivier attended the services.

The family of the deceased, consisting of a wife and four children, have been visiting in Point Lewis, Quebec, for some time, and were informed by wire of the terrible accident.

The sympathy of the entire community is extended to Dr. Olivier, who is president of Blairmore's Argenta and one of the leading and aggressive citizens of the town.

Edmund Olivier was born in Quebec and was 41 years of age. He has resided with his family at Coleman for a number of years, where he was a mining timber contractor, and was well and favorably known.

The injuries sustained by Mr. Rhynas, while not necessarily preventing him from going to his room for several weeks. An X-ray examination of his thigh bone shows a bad fracture running straight down the bone for some distance, and then running crosswise through the shell of the bone. He is progressing as well as could be expected.

Other members of the party were not seriously injured, but all received a terrible shaking-up. It seems almost miraculous that more of the party were not severely injured, as the horse came at such terrific speed and was still hitched to the delivery wagon when the collision occurred.

BLAIRMORE VERSUS PINCHER CREEK

With a record crowd in attendance at the Pincher Creek arena, the first game of the winter schedule of the Crows' Nest Hockey League, was played between Blairmore and Pincher Creek teams on Wednesday evening, December 28th, Blairmore winning, 5 to 3.

The game was fast from the beginning, while the ice was somewhat rough, with a hump just in front of one goal, over which the puck had to make a flying leap toward the goal.

Pincher Creek made the first goal in the first period, but Vejrava, unassisted, came back for Blairmore, immediately, with one score, and Prudden, also scored for Blairmore in the first.

In the second period Pincher Creek came back like a whirlwind, making two goals in short order, the score standing 3-2 in favor of Pincher Creek.

In the third period Blairmore shot 32 shots in rapid succession Turner and LeVasser scoring, unassisted, and Goddard off Prudden, making it 5-3 in favor of Blairmore.

The game was called promptly at 8 o'clock, and play began on time. Tommy Clarke, of Hillcrest, was official referee, and W. Bird, of Blairmore, time-keeper.

The Blairmore line-up was: Goal, Arthur Ennis; right defense W. Mc-

Teer; left defense, W. Turner; centre, A. Prudden; left wings, T. Vejrava and H. LeVasser; right wings, W. Jenkins and W. Goddard.

COLEMAN AT BELLEVUE

Coleman's indomitable met their masters in the opening game at Bellevue last night, when the Bellevue Tyrants swooped down upon their fortresses and landed with an air of nine to two. In the opening period, Barbour sized up the enemy for a few moments and made no mistake when he decided that unassisted he could score against the whole Coleman line-up. Like a flash Doc shot up the rink and decorated the Coleman goal with a brand new puck. Five times again in that period, Barbour and his men scored, while Coleman failed to get through Bellevue's apparently impenetrable defences.

The second period opened with Coleman apparently in better line and in but a few minutes Charley Graham scored No. 1 for Coleman. This was followed in about a half minute by another to the credit of Barbour. The play during this period was good, and combination work resulted in better shots.

The third period ended with Bellevue leading to the tune of 9 to 2.

Dr. Gillespie, of Pincher Creek, was official referee.

The Bellevue band was in attendance full strength and rendered very

pleasing selections.

The ice was in excellent shape and weather conditions were very favorable.

The general impression of Barbour's lineup since last night's game is that they are and will be winners. Fully nine hundred spectators were present.

TWO JUNIOR GAMES

Two interesting Junior hockey games were played this week, one at Frank on Wednesday afternoon, between the Blairmore Tuxis Boys and the Frank Junior team, the score resulting 3-2, in favor of Blairmore. On Wednesday evening the Blairmore Tuxis journeyed to Coleman and met the Coleman Juniors in a rapid and interesting match, the score resulting 9-5, in favor of Coleman. Rev. W. T. Young refereed both games.

MINE TROUBLE AT DRUMHELLER

William Ryan, vice-president of the United Mine Workers of America, was arrested at Drumheller on Monday of this week, for counselling miners to go on strike in the Drumheller district, and P. Rost, another U.M.W. A man was also arrested for interfering with a police officer in connection with the strike. The Callie mine, which has been the centre of interest there since the men accepted the wage reduction, is said to be working about 50 men regularly. This mine has never joined the association of operators, and was therefore free to refuse to pay the accepted scale.

Oh, Money! Money!

— BY —
ELEANOR H. PORTER

Printed by Special Arrangements with The Allen, Toronto, Ont.

(Continued)

He did not appear to notice that the music of the piano had become something but soft—faint splashes with a great deal of low talk and laughter between. He seemed interested only that Mr. Blaisdell, and especially Mrs. Blaisdell, should know the intimate history of one Elinor H. Porter, born in 1870, and his ten children and forty-nine grandchildren. He talked of various investments and of the weather. He talked of the Blaisdells' trip, and of the cost of railroad fares and hotel life. He talked, indeed, Mrs. Jane told her husband after he left that Mr. Smith had talked of everything under the sun, and that the nearly half a minute she could not get one minute to herself to break in upon Mellicent and that horrid Gray fellow at the piano. She had not supposed Mr. Smith could talk like that. She had not remembered he was such a talker!

The young people had a tennis match on the school tennis court the next day. Mr. Smith told Miss Maggie that he thought he would drop around there. He said he liked very much to watch tennis games. Miss Maggie said she liked to watch tennis games, too. It was just a few bits of a hint, it quite failed of its purpose, and Mr. Smith did not offer to take her with him. He changed the subject, indeed so abruptly, that Miss Maggie felt hurt and flushed a little, throwing a swift glance into his apparently serene countenance.

Miss Maggie herself, in the afternoon with an errand for an excuse, walked slowly by the tennis court. She saw Mr. Smith at once—but he did not seem at all interested in the playing. He had his back to the wall, in fact. He was talking very animatedly with Mellicent Blaisdell. He was still talking with her—though in that opposite side of the court—when Miss Maggie went by again on her way home. Then she went on, walking vigorously, and without another glance toward the tennis ground. But a little farther on Miss Maggie's step lagged perceptibly, and her head lost its proud poise. Miss Maggie, for a reason she could not have explained herself, was feeling suddenly odd, and weary, and very much alone.

To the image in the mirror as she took off her hat a few minutes later in her own hall, she looked at herself. "Well, why shouldn't you feel odd? You are odd. You are odd!" Miss Maggie had a habit of talking to herself in the mirror—but never before had she said anything like this to herself.

An hour later Mr. Smith came home to supper. "Well, how did the game go?" queried Miss Maggie, without looking up from the stocking she was mending. "Game?" Go? Why? I don't remember who did win finally," he answered. Nor did it apparently occur to him that for one who was so greatly interested in tennis, he was curiously uninformed.

It did occur to Miss Maggie, however. The next day Mr. Smith left the house soon after breakfast, and on

Anaemia

This, watery blood is no more nourishing than thin, watery milk—skin milk.

But you can soon enrich this blood, overcome the anaemic condition and build up the whole system by using Dr. Chase's Nerve Food.

Mrs. F. G. Simmons, 42 Curtis St., Bradford, Ont., writes:

"For about eight years I suffered from anaemia. My circulation was poor, my gums and lips were pale, and my hands and feet were always cold. I was nervous and unable to sleep. I had frequent headaches, seemed restless and easily worried or irritated. There was a burning sound in my ears, and I was also one of my complaints, and I often was attacked by weak spells. I went to a doctor, who told me I was anaemic, but as I did not get any better I decided to try Dr. Chase's Nerve Food, and after the first box I felt brighter and my blood completely disappeared. I continued using the Nerve Food for quite a while. I am quite well now, and am heartily and gratefully recommending Dr. Chase's Nerve Food to people suffering as I did before I used this splendid medicine."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

trary to his usual custom, did not mention where he was going. Miss Maggie was surprised and displeased. More especially was she displeased because she was displeased. As if it mattered to her where he went, she told herself scornfully.

The next day, on the next it was much the same. On the third day she saw Jane.

"Where is Mr. Smith?" demanded Jane, without preamble, glancing at the vacant chair by the table in the corner.

Miss Maggie, to her disgust, could feel the color burning in her cheeks; she managed to smile as if amused.

"I don't know, I'm sure. I'm not Mr. Smith's keeper, Jane."

"Well, if you were I should ask you to keep him away from Mellicent, wouldn't you?"

"What do you mean?"

"I mean he's been hanging around Mellicent almost every day for week."

Miss Maggie flushed painfully.

"Nonsense, Jane! He's moored at twice her age. Mr. Smith is fifty if he's a day."

"And he's saying he's fifty," snuffed Jane, her nose uplifted. "But I do say, 'No fool like an old fool!'"

"Well, we're all saying Miss Maggie again."

"Mr. Smith has always been fond of Mellicent, and—interested in everything under the sun, and that the nearly half a minute she could not get one minute to herself to break in upon Mellicent and that horrid Gray fellow at the piano. She had not supposed Mr. Smith could talk like that. She had not remembered he was such a talker!"

"Yes, I saw him. He was sitting around her every minute he gets a chance," snapped Jane. "I know how he acts at old ways, and I hear he scarcely left her side at the tennis match the other day."

"Yes, I saw him. He was sitting around her every minute he gets a chance," snapped Jane. "I know how he acts at old ways, and I hear he scarcely left her side at the tennis match the other day."

"What if he does? It's nothing to you, Maggie Duff!" she muttered under her breath. Then resolutely she went away, turned up her work, and fell to sewing very hard. Two days later Mellicent went back to the school tennis court. Mr. Smith and Benny had already gone. To Miss Maggie things seemed to settle down and ease at herself long and anxiously.

Stops Bronchitis Quickly Helps Irritable Throat, Ends Sneezing, Coughing

Relief comes at once when you breathe in the soothing vapor of Catarrhose. Once the healing, piney essence strikes the bronchial tubes, you realize that a powerful treatment is at work. Irritation is driven from the throat of a person inhaling Catarrhose. It is so soothing, so warming, so full of concentrated healing power that you get results at once. Catarrhose strengthens the weak throat, stops the cough, removes that hacking irritating necessity to clear the throat, makes even the chronic sufferer realize that at last he has discovered a real friend. For coughs, colds, catarrh and winter, influenza, whooping cough, whooping cough, the complete dollar outfit, Small size 50c trial size 25c, all dealers of the Catarrhose Co., Montreal.

"Of all these, except the very last, Miss Maggie talked with Mr. Smith on the way home—except the very last that was upmost in her mind, except perhaps, Fred. She did speak of Fred, but because that, too, was so much to her, she waited until the last, before she spoke of it."

"You saw Fred, of course," she began then.

"Yes. Short as the word was, it carried a volume of meaning. I heard Maggie's fearful creak. She turned to him quickly."

"Mr. Smith, it isn't true, is it? 'I'm afraid it is.'"

"You saw him—drinking, then?"

"Yes, I saw him, and I heard—more. It's just as I feared. He's got in with Graydon and the rest of his set at college, and they're a bad lot—drinking, gambling—no good."

"But Fred wouldn't—gamble, Mr. Smith. Oh, Fred wouldn't do that. And he's so ambitious to get ahead! Surely he'd know he couldn't get anywhere in his studies, if he drank and gambled!"

"Did you see his father? I saw him only a minute at the first, and he didn't look well a bit, to me."

"Did you find him in his den just as I did last year. He didn't look well to me, either."

"Did he say anything about Fred?"

"Not a word—and that's what worries me the most. Last year he talked a lot about him, and was so proud and happy in his coming success. This time he never mentioned him, but he looked—"

"What did he talk about?"

"Oh, books, business—nothing in particular. And he wasn't interested in what he said. He was very different from the young man I knew. Yes, I know. He is different."

"Signed Maggie. 'He's talked with Mr. Smith about his business, and they're living. He doesn't like—so much fuss and show and society.'"

"But I thought—Mrs. H. H. could get over all that by this," she said, after the nearest of the money was off.

"I hoped she would. But she doesn't. It's worse than anything Miss Maggie, as she ascended the steps at her own door."

"And Miss Beale?" he began disapprovingly, then stopped. "Now, I think Mellicent," he resumed, in a very different voice.

But Miss Maggie was not apparently listening. With a rather loud tiling of the doorknob she was pushing open the door.

"Why, how hot it is! Did I leave that damper open?" she cried, hurrying into the living room.

And Mr. Smith, hurrying after, evidently forgot to finish his sentence.

Miss Maggie did not attend any more of the merry-making of the holiday week. But Mr. Smith did. It seemed to Miss Maggie, indeed, that Mr. Smith was away many minutes of that long week—and it was a long week to Miss Maggie. Even the Martin girls were away many of the evenings. Miss Maggie told herself that, that was why the house seemed so lonesome.

(To be continued)

"YOUR TEETH"

THE FIFTY-TWO TEETH

By HENRY PROCTOR MCGEE, D.D.S., M.D., Editor of "Oral Hygiene"

Every normal person will have in his lifetime fifty-two teeth, as many teeth as there are weeks in the year. There are twenty teeth in the temporary set, and thirty-two in the permanent set. In each jaw the temporary teeth will consist of two central incisors, two lateral incisors, two cuspids, two first molars and two second molars.

There are no bicuspid teeth and no third molars in the temporary set; these are found only in the permanent teeth.

Nature's method of erupting or cutting the teeth is peculiar.

The temporary teeth in baby's jaws are erupting in a little groove just below the gingiva, and they're a bad lot—drinking, gambling—no good."

But Fred wouldn't—gamble, Mr. Smith. Oh, Fred wouldn't do that. And he's so ambitious to get ahead! Surely he'd know he couldn't get anywhere in his studies, if he drank and gambled!"

"Did you see his father? I saw him only a minute at the first, and he didn't look well a bit, to me."

"Did you find him in his den just as I did last year. He didn't look well to me, either."

"Did he say anything about Fred?"

"Not a word—and that's what worries me the most. Last year he talked a lot about him, and was so proud and happy in his coming success. This time he never mentioned him, but he looked—"

"What did he talk about?"

"Oh, books, business—nothing in particular. And he wasn't interested in what he said. He was very different from the young man I knew. Yes, I know. He is different."

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulence, Wind Colic and Diarrhoea; allaying Feverishness arising from indigestion, and regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

Surviving Brother Honors Three Heroes

Unveiled Memorial to Them at Darlington, England

A memorial was unveiled at Darlington to three brothers who fell in the war, two of whom won the Victoria Cross and the other the M.C. They were: Lieutenant Commander George V. Bradford V.C. R.N., who was killed on the Mole at Zebrugg; Lieutenant James B. Bradford, M.C., who died in France of wounds received in action; and Brigadier-General Roland Boys Bradford V.C. M.C., who fell in action in France. The unveiling was performed by the fourth brother, Captain T. Bradford, D.S.O.

Prediction For 1926

Astrologers Say It Will Be Year Of Disaster

The year 1926 is destined to shake the world to its foundations, both physically and politically. It is to be a succession of plagues, famines, floods, shipwrecks, rioting and revolution. So says the British Journal of Astrology, which has drawn the horoscope for that year, when the planets Mars and Mercury will be in conjunction. Six years later, the great Armageddon is to take place. It will be a final conflict between Mohammedanism, allied with Bolshevism, against the united Anglo-Saxon world.

Whale's Thick Skin

The whale has the thickest skin of any living creature. Its hide in places attains a thickness of fully two feet.

The Secret of Good Health

When Nature requires assistance, she will not be slow in conveying to you an intimation of the fact. Decline of energy, inability to sleep well, headache, biliousness, constipation, a general sluggishness of mind and body and any sign of digestive "unrest" should impel you to seek the aid of a reliable medicine without delay. There is no better—no surer—no safer—than this proven remedy.

Beecham's Pills

Sold everywhere in boxes

25c—40 pills
50c—90 pills

Genuine BAYER Aspirin

Never say "Aspirin" without saying "Bayer."

WARNING! Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances? Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 21 years and proved safe by millions for

Colds Headache Rheumatism

Aspirin is the name marketed in Canada by Bayer Manufacturers, of the world-famous Bayer brand. While it is well known that Aspirin is a Bayer product, it is stamped with their general trade mark, the "Bayer Cross."

Scarcity of Big Game

Number of Moose Killed in Saskatchewan This Year Believed to be Smallest on Record

"The big game season of 1921," said F. Bradshaw, game guardian for Saskatchewan, "has been most disappointing as compared with last year. The reports indicate that the supply of deer has been well up to the average, but the number of moose taken was far below the usual."

"It may be remembered," said Mr. Bradshaw, "that the moose were very plentiful last year, and more than 1,200 were killed by licensed hunters, but this year it would be safe to say that the number killed will be the smallest yet recorded. It is difficult to account for this, but many reasons are advanced by hunters for the remarkable shortage. Some say it is due to the ravages the moose tick which was reported to have been responsible for the loss of a great many animals last spring. Others claim that the moose, owing to the open weather, found that the muskoxen did not roam at the time of the first snow, and for that reason they had not come down from the north. A good many attribute the shortage to the timber wolves."

Get a Supply Deal! Hair The hair on the heads of most of the thousands of dolls exhibited in shop windows is obtained from the Angora goat.

"Pure" Made of Silk Finishes, carpets in imitation fur are now made of artificial silk.

DANDERINE

Stops Hair Coming Out; Thickens, Beautifies.

50 cents buys a bottle of "Danderine" at any drug store. After one application the hair will be thicker and stronger, and if it is falling out, it will grow again. Danderine is a hair restorer, and every hair shows new life, vigor, brightness, more color and abundance.

ECZEMA DASH CUTICURA HEALS

Very Itchy and Burned. Troubled Six Weeks.

"Our daughter's face came out in a rash that was very itchy and burned. Her cheeks got sore and she rubbed causing loss of sleep. The breaking out was very itchy and burned so that I had to tie gloves on her hands to keep her from scratching. This trouble lasted about six weeks before I used Cuticura. I used one large box of Cuticura Ointment with two cakes of Cuticura Soap when she was healed." (Signed) Mrs. M. Barnes, Elmwood Rd., Oak, Ont. Cuticura Soap, Ointment and Talcum are ideal for daily toilet uses. See 25c, Ointment 25c and 50c, Sold throughout the Dominion. Canadian Agent: The Canadian Ointment Co., Ltd., 100 St. Paul St., Montreal. Cuticura Soap, Ointment and Talcum are ideal for daily toilet uses.

World Happenings Briefly Told

Double-deck motor buses are now operated in Rome, the ancient city where chariots once travelled.

Rats are doing damage to Richmond dykes on Lake Umbagog, N.C., by working under and through them.

According to information received in Calgary, a small flow of oil has been struck at Walsh, Alta. just east of Medicine Hat.

The loss of a nickel cost the life of 15-year-old John Martin, of New York. He opened a subway grating to recover it, and fell to the tracks underneath in the path of a train.

Information gathered by the Northwest Grain Dealers' Association, says that farmers in the three western provinces have 31 million bushels of wheat left to market.

Jerome Napoleon Bonaparte, great-grand-nephew of the famous Napoleon, declared in New York that he was not serious consideration to an invitation to ascend the throne of Albania.

Announcement was made by the Provincial Government that Colin Groff, a member of the staff of the Calgary Alberta, has been appointed publicity commissioner for the province of Alberta in succession to the late James McGill, whose death took place some time ago.

Word was received by the Canadian Government Merchant Marine of the arrival at Novorossiysk, Russia, of the steamer Canadiana. Being with the first consignment of the 590 tank cars manufactured for the Russian Soviet Government by the Canadian Car and Foundry Company, of Montreal.

A well-defined earthquake was registered at Gonzales Observatory, Victoria, on Dec. 13th, commencing at 7.40 a.m.; the maximum being registered at 7.51 a.m., and the vibration lasting two hours. The distance is estimated at 1,200 miles, or in Northern Mexico.

A provincial real estate board, composed of all the local real estate boards in the various cities of the province, has been given birth. The new organization will be similar to the state boards south of the border, and R. B. Rice has been appointed convenor of a committee to prepare details of organization for the new body.

A "balanced diet" may sound confusing to many people

The facts, as explained here, are simple.

The secret of a "balanced diet" is to have food containing all the elements needed for proper nutrition. These elements are protein, to nourish the tissues; starch and sugar to furnish energy; fat to supply heat; and mineral salts to provide the material necessary for building nerves, brain, and tooth and bone structure.

Grape-Nuts, the nourishing cereal made of whole wheat flour and malted barley, served with cream or milk, is a complete food for young and old alike.

Go to your grocer today and get a package of Grape-Nuts. Eat it with milk or cream for breakfast; or with stewed fruit, jelly or jam, as a delicious dessert for lunch or dinner.

Every member of the family will relish this palatable and nourishing food—

Grape-Nuts—the Body Builder

"There's a Reason"

Made by Canadian Postum Cereal Co., Ltd., Windsor, Ont.

A Whistling Mouse

Only One Known That Can Mimic Birds
The town of Ocie in Ozark County, Mo., makes a bid for fame with a whistling mouse, the first of its kind. Whether this mouse has been imitating too freely of Ozark "corn licks," or whether it thinks it is a mocking bird, is not clear.
It was discovered in the home of W. H. Hampton, a merchant at Ocie, and apparently had wandered in from the woods for the winter.
The mouse can mimic a quail, mocking bird or any other bird, according to the Rev. Walter E. Fish, missionary for the American Sunday School Union of Springfield, who vouches for the authenticity of the story. It keeps up a continuous whistle and chatter all day and night, ceasing only when it hears strange voices in the building. Fortunately, the Hamptons are not superstitious, and attach no significance to the mouse's performance.

POSSIBLY YOUR OWN WIFE

She may not look so young and pretty as she used to, if her cheeks are hollow and pale, if she is thin and nervous, her system needs a good regulating with Dr. Hamilton's Pills, a real medicine that is good for restoring the bloom of health to sickly girls and women. Dr. Hamilton's Pills tune up the entire system. Complexion quickly becomes rosy, spirits rise, strength increases daily. Health, vigor and good looks will soon return to a faded woman, if she uses Dr. Hamilton's Pills. Sold everywhere, 25c per box, or from the Cataract House Co., Montreal.

Cleric Re-Elected President

United Grain Growers Elect New Officers for the Year
Hon. T. A. Cramer was re-elected president of the United Grain Growers, Limited, at a meeting of directors held at Winnipeg. C. Rice Jones was re-elected first vice-president and general manager. J. J. McEllen, Purple Springs, Alta., F. J. Collyer, Welwyn, Sask., and John F. Reid, Arctalia, Sask., were elected to the executive. John Kennedy, of Winnipeg, was elected second vice-president. E. J. Fream, Calgary, and F. M. Black, Winnipeg, were re-appointed secretary and treasurer respectively.

Dyed Her Sweater

And Silk Stockings
Each package of "Diamond Dyes" contains simple directions that any woman can dye or tint faded, shabby skirts, dresses, blouses, sportswear, everything. "Diamond Dyes" are the most perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the material you wish to dye is wool or silk or whether it is linen, cotton, or mixed goods. "Diamond Dyes" never streak, spot, fade, or run.

New Idea

The waiter had been very slow in serving dinner, and the diner was exasperated to the point of sarcasm. "Now, waiter," he said, "bring me a coffee and liqueur, and while you're away you might send me a postcard now and then."

Fiction's Rivals
Children, who are among the greatest users of public libraries, are now borrowing books of biography, natural history and travel almost as often as they choose fiction.

New Concrete Device

To keep concrete of uniform quality a timing device for mixers has been invented that controls the mixing by regulating the operation of the discharge chute.

RHEUMATIC ACHES QUICKLY RELIEVED

THE placing, agonizing rheumatic aches is quickly relieved by an application of Sloan's Liniment.

Sloan's is handy for neuralgia, sciatica, lame back, stiff joints, sore muscles, strains and sprains.
At all druggists \$5, 70c, \$1.40.
Made in Canada.

Sloan's Liniment

(Pain Enemy)

The Newspapers Win

Results Show There Is No Better Advertising Medium
Value of newspapers for advertising has once more been demonstrated by an extensive survey made by United States army officers of all means of publicity used last summer to recruit candidates for the citizens' military training camp at Plattsburg. Each candidate who attended the camp was asked how he learned of the camp and the responses from these answers have been carefully checked. In the divide for candidates every possible means of publicity was used, including show cards, addresses in public gatherings and personal solicitation. The survey of results of these means of publicity shows that newspapers informed nearly 50 per cent. of all candidates.

NOTHING TO EQUAL BABY'S OWN TABLETS

Mrs. Alfred Naud, Nataran River, Que., writes: "I do not think there is any other medicine to equal Baby's Own Tablets for little ones. I have used them for my baby and would use nothing else." What Mrs. Naud says thousands of other mothers say. They have found by trial that the Tablets always do just what is claimed for them. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, clear the infant's digestion, constipation, colic, colds, etc. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Attack of Liver Complaint

The telephone rang and the bookkeeper answered it, as the Boston Transcript tells it. "Yes, madam, this is Wilkins' market." This is Mrs. Blank. "I want you to know that the liver you sent me is most unsatisfactory. It is not calf's liver at all; calf's liver is tender and it'll call the proprietor." "What is it?" Wilkins asked. The bookkeeper surrendered the phone. "Mrs. Blank," he said, "liver complaint."

Corns ripen the feet and make walking a torture, yet are relieved in the shape of Holloway's Corn Remover is within reach of all.

German Water Flare Found in England

Picked Up in Woods And Sent To Air Ministry
A German water flare has been found in Mar Forest, Deal, Deal, Flares of this type were dropped by Zeppelins to enable the commander to ascertain whether he was flying over land or water.

The particular flare, which was found by a gillie and handed by him to the Prince of Wales, who sent it on to the air ministry, was no doubt dropped by the ill-fated Zeppelin L-20, which left Germany with nine other airships on the mornings of May 2, 1918. The L-20 crossed the coast of Scotland at Luman Day and flew on past Montrose, where it turned inland, and flew past Brechin over the Forest of Mar and within 15 miles of Balmoral. It crossed the Monadhliath Mountains and the Caledonian Canal. It then altered its course and flew east by north and dropped four bombs in the north of Aberdeenshire, where it re-crossed the coast near Cruden Bay.

Over the North Sea the L-20 met heavy winds and was driven against high land at Handhaes in Norway, on the morning of May 3. The airship was badly injured and fell into the fjord and sank. Her commander was Captain-Lieutenant Staber.

No Reduction in Shoe Prices
That there is going to be no reduction in price of boots and shoes was the statement made by S. Roy Weaver, manager of the Shoe Manufacturers' Association of Canada, and he declared that reports to the contrary are baseless.

Butterfly Farms in England
In England are several farms devoted entirely to the cultivation of butterflies and moths.

Minard's Liniment for Colds, etc.

Faith Cures and Faith Diseases

Imagination Plays Large Part in Health and Sickness

"There are faith cures," a doctor said, "and there are also faith diseases. You believe you're cured, and so you are cured. You believe you're not a disease, and so you're not it. Faith does the trick."
Every medical man knows the story of the hospital patient whose nurse told him for a joke that the patient preceding him had had small pox. Smallpox, visited that locality for years, but the joke victim took it and died of it in three days.
Another hospital patient was one day told that a lotion to be applied to his arm would burn him pretty severely. By mistake water was applied instead of the lotion, yet the patient grimaced and groaned in pain, and in a few minutes large white blisters developed wherever the water had contacted.
"Faith! Faith in a marvellous thing, and to say that it will remove mountains is no great exaggeration, after all."

Useful in Camp—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

'Mountie' Known As Royal Entertainer

Expense Was Not Considered Forty Years Ago

Thirty or forty years ago the North-West Mounted Police were well known socially as royal entertainers. Expense cost no figure. The distance their guests resided was not considered in those days. Hospitality was the motto.

Every winter, practically speaking, from '76 to '96 to the writer's personal knowledge the police at Regina (from '82), Fort Walsh, Fort Qu'Appelle, Battleford, Prince Albert, Fort McLeod, Calgary, Fort Saskatchewan, Maple Creek, annually gave a banquet and ball, the cost of which varied from \$1,500 to \$3,000, according to the strength of the divisions and where stationed—in one instance at Fort McLeod the orchestra was imported from Winnipeg.

Everybody was asked and all were welcome—the white lady and the half-breed lad received exactly the same treatment. Police entertainers were not to be considered for the guests to provide for their own transport, police trains were provided, and on many occasions drivers of 30 or 40 miles were to bring some fair matron or maid to the celebration, with transportation home afterwards.

These were the days of true hospitality, and the endeavor was to convert the most unpolished of the natives into the most polished of the civilized. A monthly wage of \$20 to \$30 for constables and from \$30 to \$45 for N.C.O.'s, and \$100 to \$150 for commissioned officers. The entertainments of the present day were based upon similar conditions the function would be some gorgeous affair.

Mothers can easily know when their children are troubled with worms, and can get them in time in applying a reliable remedy—Mother Graves' Worm Expeller.

The Gods of India

Vishnu the Preserver and Shiva the Destroyer Supreme to Natives
India is a land of "strange gods," and one of them are very strange indeed, observes a correspondent writing from India to the Daily Mail. One encounters them all over the country, but it is only in the holy cities that their presence in force is felt.

The two supreme gods are Vishnu the Preserver and Shiva the Destroyer. Vishnu is said to have come down on earth nine times. He has had a number of incarnations, having taken the forms of a fish, a tortoise, a bear and a lion, thereby increasing the popularity of these animals.

He is easily identifiable, for he is painted bright blue and stands majestically on a snake. As with many other gods, his images are treated very humanly. Every day he is aroused from sleep, dressed and fed—the food being afterwards polished off by the priests. He is bathed and put to bed just like any human child.

Shiva the Destroyer, on the other hand, is rather a fearsome monster, with a matted head of matted hair, and a snake around his neck. He has, however, most ungraciously passed his worst qualities on to his wife, the dread goddess Kali. Rather curiously, the pair of them are worshipped as the creators of all things. They are worshipped as the destroyers of all things, and as the children of women often direct their prayers to them.

Lace and Chiffon Grace the Tea Hour

By Marie Belmont

The tea-time hour can find no more charmingly feminine garment than this creation of rose chiffon and gray lace, trimmed in wide bands of Australian opossum. The warm roses of the chiffon gives just enough color to the neutral gray, while the flying side panels add their finishing touch of smartness. Speaking of panels, it seems that the straight-line skirt will never again relinquish these added bits of extra length, now they have annexed them. Indefinite hemlines, too, remain at the height of the mode, as bespoken in the bit of gray lace which finishes the rose chiffon skirt. For the wearer who desires striking effects rather than softer tones, the same gown is suggested in black lace over white satin, with monkey fur-trimmed instead of the wide fur bands.

Nation-wide Fame.—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most effective remedies for "sore throat," "croup," and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

Germans Like Chop Suey
American "chop suey" has been introduced to the Rhinelanders—and they like it.

The chop suey idea was conceived by the American soldier, Walter E. Smith, who opened a shop when his enlistment expired. Germans didn't pay much attention to the little cafe at first, but curiosity got the best of them at last and finally they began patronizing the place, and the food, served with Chinese trimmings, is quite popular now with the native men and women.

Arabian Vinegar Best
The vinegar made by the Arabs is said to be far superior to any other.

Bolsheviks Eat Clay Sauce
The Bolsheviks prepare from clay a sauce that adds relish to their potatoes.

A Little Learning makes a man dangerous company for himself.

You're Constipated!
Take "Cascarets" For Liver, Bowels

Stick headache, biliousness, coated tongue, or sour, gassy stomach—always trace this to torpid liver and delayed, fermenting food in the bowels. Cascarets work while you sleep. They immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipating matter and poisons in the bowels. Get a 10-cent box now and let "Cascarets" straighten you out by morning.

Mother, Quick! Give "California Fig Syrup For Child's Bowels"

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours your child can see for yourself how thoroughly it works all the constipating poison, sour bile and waste from the tender little bowels, and gives you a well, playful child again. Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must get "California" or you may get an imitation fig syrup.

HALIFAX EXPLOSION WRECKED HER NERVES

The reader will, no doubt, remember when a few years ago there was a collision in the Halifax, N.S. Harbor and one of the munition ships was blown up, causing great loss of life and laying a large portion of the city in ruins, and causing a great deal of suffering and distress among the inhabitants.

Mrs. Winfield Dill, now of Windsor, N.S., was living in Halifax at that time and went through this trying experience and the shock wrecked her nerves. She writes as follows:—"I was living in Halifax at the time of the explosion, and it wrecked my nerves so that I could not do my housework. I would take such nervous spells I would be under the doctor's care."

I saw Milburn's Heart and Nerve Pills advertised, so I took two boxes, and they helped me so much I took still more, and now I am completely relieved. I can recommend them to anyone suffering from heart and nerve trouble."

To all those who suffer from nervous shock we would recommend our

MILBURN'S HEART AND NERVE PILLS

as the best remedy to tone up the entire nervous system and strengthen the weakened organs. Milburn's Heart and Nerve Pills are the original heart and nerve food having been on the market for the past 27 years. Price, 50c a box at all dealers, or mailed direct on receipt of price to The Milburn Co., Limited, Toronto, Ont.

Gets Fortune From Police Court Fine

Ball, Given Before War Nets Army Officer Big Snub

The collision in Australia exchange turned a police court fine into a fortune for an Austrian army officer who has just been sentenced to pay \$50 francs at Bhech for assaulting a customs official before the war. The officer then was released upon cash bail of 5,000 Swiss francs, deposited at a time when the crown was the equivalent of the franc.

When he paid his fine, and received the bill he departed, years ago, he found that he had what would be changed into more than 2,000,000 Austrian crowns.

Minard's Liniment for Garget in Cows

Ducks Becoming a Nuisance
The depredations of the duck have become so serious in certain parts of Saskatchewan that the farmers will likely ask the Provincial Government for an open season the year round.

Swiss Have Joint Dairies
Switzerland has many co-operative cattle associations, besides joint stock dairies in every village.

Before calling a man a liar, be sure you are right—then don't.

RAW FUR COLLECTORS AND TRAPPERS get highest prices for your furs. Ship them to me. I have more than satisfied others. You too are sure of best returns. Write for tags and price list. Reuben Wolf, 114 West 30th St., New York.

AFTER HOLIDAY

DULLNESS

Many of us in business make the
mistake of rather losing heart and
going into the "dumps" in the short
period of dullness which always fol-
lows the holiday season.

Business people never made a more
serious mistake. By slackening their
aggressive program right at the be-
ginning of the year they lay the
poorest foundation for the coming
year's business. They get out of
touch with their people and their cus-
tomers get out of touch with them.

We all know that this period of
quietness always prevails after the
holiday season, and many of us make
the same mistake of "laying down"
on the job, so to speak. It gives
our customers an idea that we are a-
bout at the end of our string. It in-
vites other keen scented business men
looking for an opening, to come into
our midst and divide up a trade none
too large at any time, in a small com-
munity.

Right at the beginning of the year,
when everybody is laying plans for
their outlay during the year, is the
time to get before the people with
your very best propositions, your very
strongest points. After the holidays,
purchasers settle down to hard
thinking and planning for a few
weeks, and that is the time to attract
their attention, to make your bid for
their trade.

While people are in the sober
thinking mood is the time to spend
the most money and effort in making
known to them just what you have
and just what you are planning on
offering them. It is the opportune
time in the year to spend money in
your publicity department. It will
sow the seed of a harvest which you
will reap later in the year, multiplied
many times.

If you toot your little tooter

And lay away your horn,
Within a week there's not a soul
Will know that you were born.

Accelerate—it's 1922.

DECLARATION

DELAYED

Official Count Adjourned But The
Totals are Known Unofficially.

The official count for Macleod rid-
ing was made last Saturday, with the
exception of five polls, in which the
deputy returning officers had failed to
transmit official statements. The
count was therefore adjourned until
Friday, the 23rd, and if necessary,
statements have not been received by
that time a further adjournment will
be taken. The vote in these five polls
is known, unofficially, but the declara-
tion of the result cannot be made
until the returns are in order.

The totals of votes for each candi-
date including the unofficial returns
of the five polls not in order are:

Cootes	6096
Fairhurst	1592
Gillis	917
Shaw	1767

Total 10172

This gives Cootes a plurality over
Shaw of 4329, and a majority over all
of 2020.

There were 4328 votes in the riding
which were not polled.

The count was conducted by Re-
turning Officer Ralph C. Jessup and
Election Clerk Earl B. Trull, in the
presence of Walter Prantzen and B.
J. Casey, representing the electors.

The ballot boxes and the returns
were in much better shape than us-
ual. There were only five errors
and those of technical nature, out of
180 polls is a good average.

SELF MADE SUCCESS

Many of those who have not ac-
complished in life as much as they
think they should have accomplished,
often lay the blame on their sur-
roundings.

"I had no education, no chance,
when a boy," they complain.

Right here in Blairmore and other
towns in The Pass are young men
and women who have been practically
reared here, and are holding good
positions, are really efficient and suc-
cessful in their chosen calling, no mat-
ter what it may be, in bank, store,
office or other line of work.

More than half our success depends
upon our own effort, it depends upon
the way in which we seize the oppor-
tunity before us. Success does not
mean going a long way from home
and getting into a big position. It
means making the very best of what
we find around us, of converting
crude circumstances and crude oppor-
tunity, into finished character and fin-
ished efficiency in our chosen calling.

It is possible to be just as much of
a success in Blairmore, as in Mon-
treal, Toronto, or elsewhere. It is
the way we build our business habits
and business morals, which deter-
mines how successful we are.

It is more creditable for a boy or
girl to climb out of humble environ-
ment and surroundings of life to suc-
ceed in Blairmore, even, than for
them to slip into a successful career
through the influence of some one
else, or through the more fortunate
condition of birth.

It is the Self-Made Success, which
we have builded from the ground up-
wards, which counts.

MAR POY'S ANNUAL CHEQUE

The town of Blairmore possesses
one of the most punctual and extra-
ordinary taxpayers, perhaps, in Al-
berta. Mar Poy, the pioneer Chinese
merchant, has made it a practise for
years, to hand the town clerk a
cheque for the approximate amount
of his taxes, water rents and electric
light bills, for the entire year, and
the cheque, according to custom, is
now about due. Sometime around the
New Year, Mar Poy has written this
cheque from year to year, thus pay-
ing all his taxes and charges in ad-
vance. At the end of the year his
actual indebtedness to the town is
cast up and if he has overpaid, the
amount is returned to him, if he is
still a small amount in arrears, he
immediately pays up.

A SEAT FOR MEIGHEN

A. C. Casselman, newly elected
Conservative member for Grenville,
Ont., will resign to permit Hon. Ar-
thur Meighen to stand for parliament
in that constituency. Mr. Casselman
has been appointed to some unknown
position under the crown, in return
for his courtesy of resigning.

NO CABINET MET

At the time of going to press this
week no definite cabinet announce-
ment has been made by Premier-elect
Mackenzie King. A tentative list of
cabinet members has been published,
but it is not authentic.

CARDLE-BOSELEY

A pretty wedding ceremony took
place at St. Cyril's church, Bellevue,
on the eve of Christmas Day, when
James Cardle, well known mine su-
perintendent, led to the altar Miss
Helen Boseley, daughter of C. Bose-
ley.

The ceremony was performed by
Rev. Father Cosman in the presence
of a number of friends.

After the ceremony a wedding
breakfast was served and the newly
wedded couple took the evening east-
bound train for a brief honeymoon
trip. They will reside in Bellevue.

Reports from Quebec to the ef-
fect that women were to be ad-
mitted into Masonic lodges in
Canada, is emphatically denied.
Many an old Mason would smile
to think of his wife taking the
"third degree."

School will reopen on Tuesday next.

Albert Lamon was a visitor to Macleod over the week end.

E. L. Swinney, of Fishburn, was a visitor here this week.

Charles Fontaine, of Dovercourt, is a business visitor here.

Miss Doris Ryan, of Hillcrest, is visiting her sister, Mrs. Leigh.

Robert Moir has returned, after spending Christmas holidays at Nanton.

At present writing, a very welcome chinook has struck this part of the country.

Miss Kathleen Proctor, teacher of Tanner school, has returned to her home at Calgary.

Miss Reta Coates, of Calgary, was down for the week end, visiting with her parents here.

Miss Margaret Kemmis, of Mountain House, is spending a few days at her home here.

The Claresholm orchestra gave a dance in the town hall here on Wednesday night last.

Miss Gladys Baines and Mr. Ed. Baines spent Christmas in Lethbridge with their parents.

Miss Betta, who has been undergoing medical treatment at Lethbridge, has returned home.

Miss Bernice Anderson, of the teaching staff here, is spending the holidays at her home at Parkland.

Miss Rosemond Blackburn, teacher of Gads Hill school, is holidaying at her home at Fishburn.

Mrs. Ulyett, who has been teaching the Tennyson school, has resigned and gone to her home in Camrose.

Miss Edna Fulton, of the Blairmore teaching staff, is spending the Christmas holidays with Mrs. Morrison and family.

During the past week, babies have arrived at the homes of Mr. and Mrs. Lowe and Mr. and Mrs. Holmes—Xmas presents.

Miss Elsie Coates, who has been attending the agricultural school at Claresholm, came home for the holidays. She will return in a few days.

Miss Anna Kemmis and Miss Kathleen Elton, who have been attending the Pincher Creek high school, are spending their Christmas holidays at their home.

Miss Muriel Murphy will return to Edmonton shortly to resume her studies in the Strathcona collegiate, after spending the Christmas holidays with her parents here.

Messrs. Cyr & Smith have dissolved partnership as a firm. After January 1st, Mr. Cyr will conduct the Cowley store, while Mr. Smith will control the store at Lundbreck.

Mr. and Mrs. Edwards and daughter Anaheta, who have been residing here for the winter, have taken advantage of the week's holidays and have gone out to the ranch.

Mr. and Mrs. A. G. Swart gave a whist party at their home on Monday night last. As usual, everyone present reported an enjoyable time. Mrs. J. Edwards was the lucky prize winner.

Mr. Leslie Wesley, who has been in a Lethbridge hospital for the past month, returned here Saturday. We regret to say that he was forced to return to the hospital again on Tuesday for further treatment.

Last Friday evening the Christmas entertainment was held here in the town hall. As usual on this occasion, a very large crowd was present. One outstanding feature of the evening was the falling of the platform, while the programme was in progress. Luckily no one was hurt. The

Items of Local and General Interest

Haddock will lay as many as 1,500,000 eggs in one season.

A new broom doesn't sweep cleaner than the old one with a new hired girl attached.

A new company has been formed with a capital of five million dollars to develop coast properties in Newfoundland.

A darkey preacher during the course of his sermon, remarked: "Wherever two or three are gathered together in my name, I will be there, whether they be in the same or different places."

The Calgary Herald Sunshine Christmas fund reached a grand total of \$12,000 before midnight on Christmas eve. This entire sum is being expended for relief and Christmas cheer among needy families in Calgary.

In connection with the recent municipal elections in the city of St. John's, Newfoundland, the enumerators' lists contained the names of 8300 voters, but over three thousand were in arrears and not allowed to vote.

"I suppose you're disappointed it isn't a boy," remarked a friend to a proud new father the other day. "No Street" came the reply. "When I think that we men now vote, smoke, go anywhere, wear whatever clothes they like, if any, and that the men can't even have a glass of beer any more, I'm not fed."

AUTO OWNERS, ATTENTION!—On January 1st, we will have on sale Red Star High Power Gasoline, the kind that will give your motor the easy turnover and save your battery; costs a little more, but is worth a great deal more. —W. M. BUSH, The Blairmore Volcanizing and Exide Battery Service Station, Victoria Street, East End.

Michel And Natal

Mrs. Harrison, wife of Postmaster Harrison, of Michel, is still ill, having been in poor health for the past six months.

It is rumored in Michel this week that mine No. 3, one of the oldest working mines in this district, will be closed down indefinitely, soon.

The Great Northern has been hauling thousands of tons of Michel coke into Montana, Idaho, Washington and Oregon, thus furnishing employment to several hundred miners and coke oven men in Michel and Natal.

Christmas was fittingly celebrated in both Natal and Michel, the festivities ending with a grand ball in Michel on Monday night, which was largely attended by guests from Fernie, Crows' Nest and other neighboring points.

One of the most beautiful sights in the mountains, along the Crows' Nest line, is a frozen waterfall, hanging to the side of the mountain wall, at Natal. This cascade, more than 100 feet in height, is frozen in its natural form and clings to the side of the mountain like a gigantic mirror.

While there are about 500 miners on the rolls at these two camps, yet very few of them are working. One and two days per week is about the limit, with the exception of the Crows' Nest Coal company mine, No. 8, which supplies the cooking ovens with coal. This mine has been working practically full time for weeks, owing to the great demand for coke in the United States.

candy and nuts given by Messrs. Croickshanks and Leigh, were much appreciated, everyone having a generous bagful.

Learn from the clock: It passes the time by keeping its hands busy.

Pentecost claims her payroll will be about one million dollars for 1932.

The population of Alberta has increased \$5.84 per cent. during the past ten years.

Miss H. McCarthy is the guest of Mrs. J. H. Farmer over the holiday season.

Mr. Angable, gent's furnisher of Claresholm, was looking over the Pass field last week.

The man at the top is usually someone who has been in the habit of going to the bottom of things.

It usually takes more effort and greater strength to remove a Christmas cake from the oven than any other kind.

The simplest way to handle the income tax matter is to give Uncle Sam all you have, and let him give you back the change, if there is any.

Mrs. McVey was surprised the other night to find her Bill turned in with a skate on. Of course, the rink had to take the blame for that.

A number of business houses in the Crows' Nest Pass will start the new year with a demand for straight cash sales and no more credit.

It is said that women wear rings in their ears to keep their hats on. If that is so, a man should wear a ring in his nose to keep his pants on.

Watch the Blairmore Cash Grocery ad next week for Inventory Specials. The greatest buying opportunity of the season will be yours.

The Christmas Tree at the Union church on Tuesday night was not as largely attended as was expected, yet the tree was soon unloaded of its burden.

There are 1,255 flour mills in operation in Canada. The capital invested is \$78,000,000 and the value of the annual output exceeds \$282,000,000.

Marriage is a state that lovers look forward to, widowers look back to, bachelors look out for, and no one but the mother of twelve sturdy children understands.

One of our exchanges from the States boasts about the superiority of the port of Philadelphia. "Here in this part of Canada it is against the law to advertise intoxicants."

It is said that a man with drink in him sees double. Well, a drunk ventured to skate around the Blairmore arena one night last week and claimed he could see people two laps ahead of him. Seeing double, alright.

A new church was opened at Trail last week by the Presbyterians. At the dedicatory service Rev. R. J. Douglas, the pioneer of Presbyterian pastoral work at Trail, was the principal speaker. The present pastor is Rev. A. M. O'Donnell. There were also present on the platform Rev. W. B. Wilton, of the Methodist church and Rev. A. L. Haynes, of the Baptist church.

Wanted—A friend; one who will recognize us when we are compelled to wear patched pants; who will take our hand while we are sliding down hill instead of giving us a kick to hasten our descent; who'll come to us when we are sick, who will talk of us behind our back as to our face. Such a friend is needed by billions of human beings throughout the whole world.

Mr. and Mrs. T. J. Murphy returned to Lethbridge on Tuesday, after spending Christmas with relatives here.

The Mackenzie river, one of the longest in the world, is 2526 miles in length, including the Peace, its greatest tributary.

Miss Charlotte MacEachern, of the Coleman teaching staff, is spending the Yuletide holidays with her parents at Lethbridge.

A Quebec highwayman was sentenced to seven years imprisonment with 14 lashes on his bare back with the cut of nine tails.

Work on the survey of the William Pearce Irrigation project, east of the Red Deer river, will be carried on to some extent this winter.

In Hanna last week farmers sold hind-quarters of fresh killed beef at \$5 and fore-quarters at \$2.50 per quarter, rather than haul it home.

Sudbury district, Ont. produces 80 per cent of the world's pickle supply. In the past year the output amounted to 30,668 tons, valued at \$24,594,282.

Sam Moore, of Coleman, was fined \$250 by Magistrate Grosman last week for having in his possession seventy barrels of beer. The beer was confiscated.

Henry Ford, of motor-car fame, has offered to buy every warship scrapped by the United States, and other powers at "junk prices," for conversion into machinery.

Canada consumes about \$5,000,000 tons of coal annually, produces about 17,000,000, exports about 2,600,000 tons and imports on an average of 18,500,000 tons.

A ten-million dollar pulp and paper mill is to be established on the west coast of Newfoundland, that will ensure employment for upwards of three thousand men.

In places in the drought area east of the Red Deer river, the schools are being closed until some definite plan of relief has been decided upon.

An impatient customer in a confectionery store rapped sharply on the counter.

"Here, young lady," she called, "who waits on the nuts?"

The merchant who decides to hold off until things improve, may find, when things improve, that the man who held on and helped them to improve, is so far ahead that he cannot be caught.

The people of the United States spend one billion dollars per year in moving picture shows, according to figures made public in recent investigation of the business. The amount of money invested in the industry in the states is \$25,000,000 and it employs about 250,000 people. The big operators are asking for a 50 per cent. duty against foreign films, claiming that films which cost \$200,000 to make, in the U.S., can be made in Germany for \$10,000.

Mr. H. Woolfe, special representative of the Canadian Universal Film Co., is in town and has just finished arranging with Mr. Ubertino for the exhibition of the All-British-Columbia production—"Conflict." This picture was made on the Crows' Nest and Bull River and some three hundred people who live in these parts took part in the making. The story was recently contained in the Red Book for some nine weeks and features the popular Priscilla Dean. The Universal Film Co. stands behind this production and guarantees the attraction. Watch for playing dates.

W. A. Fraser, of Pincher Creek, was a visitor here on Wednesday.

Adolphus Cyr was up from Pincher Creek on Monday.

Misses Fulton and Keith spent Christmas at Cowley and Calgary respectively.

Miss Revere, of Pincher Creek, was the guest of Miss Louise Graham during Christmas.

There are 6,800,000 farms in the United States. In the 1911 census there were 714,000 in Canada.

William Leslie, M. P. for East Calgary, is making plans for publishing a second book on economic and political life of the "The Farmer in Politics."

A camp for unemployed married men has been established in Vancouver, where military supplies will be furnished. Board and lodging will be supplied at \$5.00 per week and two days' work at 40¢ an hour will be guaranteed.

A foot-Cross tea will be held at the home of Mrs. Little on Tuesday afternoon, January 3rd, at three p. m. Members and friends are most cordially invited. Proceeds will be used to pay for knitting stockings, which are so much needed for relief work.

The funeral of the late Mrs. Clementine Celli took place at Coleman on Monday afternoon and was largely attended. She was a sister of Frank Celli, formerly of the Palm Cafe, Coleman, but now residing in Helix, Columbia. Mrs. Celli leaves a husband and six children, the eldest being about sixteen years.

A story is told of an inquisitive American Woman in Calgary, who was enjoying her first sight of a kiln's band. After the program she approached the leader, an elderly Scot, and said: "Is it true that you do not wear tight, under your kilts, this cold weather? I can scarcely believe it." He replied, without cracking a smile: "I'm a man o' few words, lady. Give me your hand, an' I'll prove it to ye."

A. A. Frechette, of Trail, B. C., has invented an air cylinder shock absorber for automobiles, which is said to be the best absorber yet invented. The cylinder is automatically filled with air, as the body of the car lifts the piston up and down on rough roads, and the load in the car is practically riding on air, thus eliminating the jar. He claims a car can be driven 20 miles per hour over the roughest kind of roads without vibration. But why the hurry? Why is it necessary to rush over life's rough roads so rapidly?

Constable Marlarion, of the A. P. Police, made a lucky capture at Pincher Creek last week, when he grabbed a car of Christmas.

The car came in through Lethbridge and the constable had been tipped off to be on the look out. A short distance out of Pincher Creek the car broke down and it was necessary to call for assistance from the Creek. The car was transferred and because Moore, Morgan, of the garage, refused to allow liquor into their premises the driver sought shelter at the rear of the Lethbridge building. In clear view of the barracks. The constable immediately took charge and had the occupants appear before Magistrate Greenham, who happened to be in the Creek at the time. The two men were fined \$200 each with costs, and the joy stuff will probably be confiscated and destroyed. There seems to be considerable general rejoicing over this capture, for it appears that most of the stuff had been doped and of very inferior quality.

Miss Pearl Moran has been transferred from Blairmore to another branch of the Union Bank of Canada. She is succeeded here by Miss Brown.

Eugene V. Debs, thrice socialist candidate for United States president, was released from prison on Christmas eve, after serving three years of a ten-year sentence for interfering with recruiting.

We are glad to see Joseph Little around again, after a few weeks confinement to hospital.

Lethbridge fair board came through the year with a surplus of over one thousand dollars.

The Blairmore Junior Hockey team went down to defeat with Coleman on Monday afternoon to the tune of 6 to 3.

FOR RENT—Two furnished house keeping rooms. Hot water and phone. For particulars apply to Mrs. W. O. Evans, phone 216.

Mrs. Webb, of Blackie, Alberta, gathered fresh lettuce from her garden on Sunday, December the 11th. The lettuce had been protected by a snowbank.

At a sale of twelve obsolete United States war vessels at Portsmouth, N. H., last week, the little cruiser Brooklyn, once the crack ship of her class, brought only \$41,666.

J. C. Patmore spent a couple of days in Blairmore last week while enroute from California to spend Christmas at his old home in Ontario. M. Patmore is looking remarkably well.

A Toronto woman writer protests against Miss Agnes McPhail, M. P., claiming to represent all the women of Canada. She says: "Just because an M. P. is red headed she need not claim to represent all the red heads in Canada."

Sam Hughes, former minister of militia, was worth \$800,000 when he died. His estate is almost entirely made up of Victory bonds. Sir Sam liquidated his stockholdings and made investments in Victory bonds a year before his death. At the time of his death he still held considerable real estate in the west and coal lands in the Crow's Nest district.

William Warcup, a pioneer stockman of Tongue Creek, west of High River, dropped dead while doing his chores, last Saturday. Heart failure, from which ailment both his grandfather and father had died, was the cause of his death. He was a strong, virile man in the best of health, other wise. He had been on Tongue-Creek for 20 years and was highly respected.

The Calgary Anglers' Club want all streams within the boundaries of Bow River district of the Rocky Mountain forest reserve, excepting Bow River, Elbow River, Highwood River, Red River, James River and the south fork of Sheep Creek, closed against angling for one year, commencing with the opening of the season of 1922. War will be waged against bull trout, there being no season limit on them.

The Enterprise received the greatest insult of its life this week. Sing Lee refused to laundry the office towel. He suggested that it should be buried, instead.

Joseph T. Shaw, Independent Farmer candidate in West Calgary, nosed out 16 votes ahead of R. B. Bennett, in the official recount and is elected.

In spite of the 30 cents per bushel tariff, British Columbia apples to the amount of 35 car loads have been shipped to New York this season.

Calgary is now using natural gas from the old Dingman oil well, west of Okotoks, the Turner valley pipe line having been completed.

A Montreal said one of the most interesting sights witnessed by that city, during the recent convention of the Canadian Authors' association, was to see the Scotch section of the association filling their pens at the public ink wells in the postoffice corridor.

High River hunters bagged four fine deer, just before the season closed. They saw herds of 20 to 30 in the edge of the Porcupine forest reserve.

"Inspiration" says that rein will not go down until houses start to go up.

Forest Fires And The Fur Trapper

Loss of Lumber Small Compared to Trapper's Loss

Baldon does the casual observer or even the interested individual for that matter, ever see those two highly important subjects discussed together.

Much has been said and more has been written of the vast areas of timber lands, falling prey to the flames. Far easier to reduce the resultant loss of lumber, into dollars and cents, than to estimate with the faintest degree of accuracy the pecuniary loss in so far as the fur bearers are concerned.

That forest fires destroy wild life is unquestioned—but to what extent is a somewhat debatable question. Endowed with keen brains and active bodies, most of the wild folk it would appear, scurry before the onrush of the flames—on occasion leaving their young to fight as best they may.

To the experienced man of the woods, the action of certain wild creatures follows certain clearly defined lines, for instance, during a fire of any consequence, such peculiarly gifted animals as the beaver and the muskrat, plunge to the bottom of the nearest stream or lake, and being root-eaters, have no difficulty in finding sufficient nourishment. The mink or otter too, seek protection in the cool waters of nearby streams and there find usually enough muskrat and fish to guarantee them against hunger.

The Lazy Lizard

Recent Arrival at London Zoo Has No Legs

It is reported that there has just arrived at the London Zoological Gardens a creature which "looks like a worm but really is a degraded lizard whose legs and ears have faded away."

This degraded lizard lives in the huge nests of the "anba" ant, and when it wishes to die it simply puts out its tongue and lies up a few ants.

That is no doubt a very easy way of getting a good dinner, but we have little doubt that the lizard has lost its legs and become such a poor miserable object through the lazy life it has led.

Organs which are not used waste, and in time vanish like the legs of a whale; and the degraded lizard is a good example of the dangers of sloth. It would be a far prettier and happier lizard today if it and its ancestors had had to run about and hunt for insects, as most respectable lizards do.

Cheese and Butter Exports

Increase of Over Three Million Pounds in 1921

In the period from May 1 to Dec. 31 Canada exported to Britain and the continent 74,652 packages of butter of 16 pounds each. In the same period in 1920 the export was 13,079 packages of the same weight, an increase of nearly three and a half million pounds for 1921. The number of boxes of cheese shipped during the same period was 1,429,386, an increase of 36,157 boxes. Total receipts of butter at Montreal for the same period were 520,353 packages, against 372,869 in 1920. Receipts of cheese were 1,533,630 boxes, against 1,415,779 boxes in 1920.

This increase in the movement of dairy products draws attention to the fact that dairying today holds out more hope of return than many other lines of farming.

In Lucid Intervals

The teacher in one of the grades called her young pupils to write essays, character sketches. "Up went one little hand."

"May I write about you, Miss Brown?"

"Certainly," said Miss Brown politely.

"She is my teacher. She has amber colored hair and green beads. She is smart and she does not like you if you are not smart. She has nice manners and pretty clothes and is sort of speech when not mad."—Minneapolis Tribune.

Many Big Game Licenses

More than 400 deer licenses and 20 moose licenses were issued at the office of Game Warden Parks in North Bay, for the hunting season just closed.

Of the replies given to the questionnaire as to whether or not the hunter favored the use of dogs in deer hunting, two to one favored hunting without dogs. It is reported that such has been the proportion.

Half Men on Farms 50 Years Ago

Fifty years ago one-half of all the men in the United States were engaged in agriculture.

Brown eyes are said by oculists to be the strongest.

Money invested in knowledge pays the best interest.

W. N. U. 1299

Britain And Back In One Week

Scheme to Link Up Empire By Fast Steamers

Wonders will never cease. Before long it will probably be possible to go from Canada to Britain and back in a week.

A great scheme to link up the Empire by a service of fast new steamers has been proposed to the Imperial Shipping Committee, and the Canadian Chamber of Commerce in London declares that the scheme is now likely to become an accomplished fact.

There will be eight fast vessels of 50,000 tons, half as large again as the Mauretania, and these will be fitted with turbine engines burning oil fuel and capable of developing a speed of at least 26 knots. The crossing between Liverpool and Nova Scotia will be accomplished in four days, so that a slight lessening of this time would enable a traveller to go from Canada to England and back in about a week.

The journey from England to Sydney by way of Canada and Vancouver will be completed in 20 days.

Wise Walking

Surroundings and Companions Make Or Break a Man

In spite of himself a man takes on the character of his surroundings. Environment very largely makes up or breaks us. Travel with rogues and you will become like them. Consort with wise men and you cannot help taking a certain amount of their wisdom.

Wise men shall be wise. None of us can afford to miss the advantage of association with those who know better than we do. The trouble is too many of us want to shine in our own crowd and are fond of being big heads in the little puddle that we miss the advantages of contact with those who are able to increase our wisdom. Cut out wasting your time with those who have nothing to give you. Rub against those that are sure to brighten, not dull the wit you have.

"The companion of fools shall be destroyed." There is nothing more certain than the end of the fellow who picks for his company those who aim to shut him through life. Solomon, in the Furniture Journal.

Tribute From Marshal Foch

Gives Great Praise to Valor of Canadian Soldiers

Marshal Foch, the French Generalissimo, who was the guest of Montreal speaking at His Majesty's Theatre, at a reception in his honor given by the Montreal Canadian Club, paid a high tribute to the Canadian corps in France.

"It," he said, "succeeded on many occasions in holding back the enemy, these successes were due in no small degree to the bravery and activity of the Canadian corps which was always ready."

The Marshal added that the Canadian troops were largely instrumental in repelling the German attack on Paris in 1918, and that when he called upon them for the final effort, his General, Sir Arthur Currie, who was present at the reception, had responded with the cry: "En avant."

Mennonite Children

Going to School

Parents Making Effort to Obey Educational Requirements

Prosecutions against the Mennonites in Saskatchewan for failure to send their children to school, still continue, but an improvement in the situation is seen by the Provincial Government.

The Mennonite parents are sending their children to school seven or eight days each month, and while such irregular attendance does not comply with the law, the Education Department is not pressing for prosecutions in cases of this kind. In explanation of this attitude it is said, that in some of the Mennonite districts parents who send their children to school are being practically ostracized by their neighbors and the department is treating them as sympathetically as possible, where it is shown that they are making some effort to comply with the educational requirements of the province.

Many Tongues

An immense crowd of people, representing many nations and tongues and surrounding an army officer's meeting, at Rangoon, Burma, was addressed by different Salvationists in Hindustani, Burmese, Tamil and Telugu.

It is rumored a certain mother washed her little boy's mouth out with soap because she heard him use a swear word, and then added insult to injury by making him sing "Everybody's Blowing Bubbles."

The Chinese laundryman accepts cuts, but draws the line at kicks.

The British railways employ 10,000 female clerks.

His Excellency Lord Byng of Vimy, Governor-General of Canada, placing a wreath on Montreal's Cenotaph to the Unknown Soldier, Armistice Day, 1921. General Charles Armstrong, G.O.C. of Military District No. 4, in foreground.

Canada's Potato Crop

In Eastern Canada It Is Below the Average This Year But in the Prairie Provinces Above

Prince Edward Island is the only province in the east that had a good crop of potatoes this year, although the prairie provinces all produced above the average for ten years, Saskatchewan and Manitoba doing particularly well. Quebec's production was below the average. British Columbia's yield was below the average but exceeded that of last year. Ontario's crop, both east and west, was not half of last year, but the northern districts showed up satisfactorily. Over the whole province, the yield was 10 1/2 bushels per acre against 11 1/2 last year and an average of 11 1/4 for the years 1911 to 1921. These facts are taken from the Dominion Fruit Commissioner's report, dated November, 1921. Excepting British Columbia, all the provinces report freedom from any serious disease. In British Columbia late blight seriously reduced the shipping stock usually available from the lower mainland. The drought in the early part of the summer placed and havoc with the potato crops in Ontario and Nova Scotia. In the first named province, particularly. Regarding the market generally, the report says that as the digging season progressed and the favorable weather continued, there was expectation of a larger crop than originally estimated and growers became optimistic. Shipments grew heavy, but the demand turned out unusually light and prices slumped accordingly. The total yield of potatoes from all Canada this year is placed at 110,585,000 bushels against 123,531,400 bushels in 1920. The average wholesale price for the entire Dominion is quoted at \$1.65 per cwt., or about 93c per bushel.

Stream Under Regent Street

Danger Discovered Will Avert Peril to Oxford Circus

Old London has just narrowly escaped a great peril, the possible caving in of Oxford Circus, the shopping centre of the West End, says a story circulated by a news agency. The danger of the disaster was known only to contractors and workers underground. They were altering an exit from the Oxford Circus tube station so as to make an entrance into a business building when the contractors discovered a bed of a little unknown tributary of the Thames River which was covered over when Regent Street was made.

They also found, to their amazement and consternation that they were meeting the direct "line of vibration" of the two underground tubes, the Central London and the Bakerloo.

The news agency says that they realized that if the excavations continued the whole of the Oxford Circus might be literally precipitated underground. There were serious days and laborious nights occupied in deepening the buildings above ground and overcoming the slide pressure which was being felt.

In place of the shifting sands of the old river bed, there was constructed a retaining wall of concrete which, it is declared, has made the great shopping centre more secure than at any time since the river flowed down the slopes of the present Regent Street.

The British Premier

American Paper Pays Tribute to a Remarkable Personality

Probably no other man has faced so many complicated problems as Lloyd George. His life has been a constant turmoil. He has been so beset that, as he himself has lightly remarked, "a change of trouble is in the nature of a rest." Emerging from the British people to win the war, opposing an entrenched machine, that resisted unity of command first at the Aqueduct from the front and by the Northcliffe press from the rear; at one hour fighting the great British labor host and the next clubbing its opponents into accepting settlements; wrangling with Wilson and then with Briand; distrusted by the dominant social elements of Great Britain, and all the while compelled, on an instant's notice, to repel an onslaught in the House of Commons—here is, indeed, an exemplification of the strenuous life. To come through debauche, even though battered, is amazing.—The New York Tribune.

Johnnie, aged six, was one of those mischievous little fellows spanked frequently by mother. One day father came home in time to see Johnny with red eyes and big tears trickling down his cheeks.

"Well, son, what is the trouble?" he asked.

"Oh, nothing in particular, pop, only I just had a quarrel with the wife of yours and she spanked me."

Gave It a Good Start

An English country yokel had never seen an automobile until one day one came dashing up the street and disappeared in a cloud of dust. "Well," he exclaimed, "the horses must have been gold at a pretty good clip when they broke loose from that carriage."—Boston Transcript.

A hymn book in English and Eskimo has been prepared for use in Alaska.

Agricultural Instruction Aided

Liberal Grant Made By Federal Government For Three Prairie Provinces

Out of the grant made to the different provinces under the Agricultural Instruction Act of the Dominion, the three prairie provinces receive a total of \$227,807.31. The grant is divided according to population, Manitoba receiving \$79,113.11, Saskatchewan \$81,728.48, and Alberta \$66,965.72. In the three provinces upwards of \$26,000 is devoted to meeting the expenses of agricultural representatives, over \$30,000 goes to women's work, and close to \$100,000 directly to the colleges and schools, to short courses, and to extension services.

In addition, Manitoba devotes \$16,000 directly to the promotion of boys and girls' clubs. The other two provinces also expend very considerable sums on the same object, all having in view the education of the young in practical things, and especially in the raising of chickens, pigs and calves. Prominent use made of the funds derived by these three provinces under the act are, at Manitoba, \$10,000 for short courses and \$15,000 for women's institutes and home economics; by Saskatchewan, \$19,000 to assist the college or agricultural instruction in public, high and normal schools and the training of teachers. Alberta allots \$40,000 towards defraying the expenses of the six agricultural schools.

A New Hand Tool

Has Four Speeds and is Remarkable for Lightness

The bread drill is one of the most familiar of small hand tools in engineering shops, and many engineering people will therefore be interested in a novel form which has been brought out by a British firm. This tool provides four separate speeds. The usual toothed crown wheel is replaced by a disc with four concentric circles of conical holes. On the drill spindle there is a piston which meshes with one circle of the four holes. In order to change the speed of the drill the piston is moved from one circle of holes to another. At all speeds the bearing runs very smoothly yet rigidly, and the whole tool is remarkable for its lightness.

New British Air Service

Will Provide For Additional Service Between London and Paris

In spite of the difficulties which surround the development of a novel form of transport, the regular aeroplane service organized in Great Britain continues to expand. In the near future an additional service between London and Paris will be started. It is intended to arrange four regular services each way per day with British aeroplanes. These services will involve some portion of the journey being made in darkness. Improved lighting arrangements have been introduced at the aeroplanes in order to enable night flying to be carried on in safety.

When Fruit Was Scarce

Many of the fruits and vegetables now eaten were almost unknown to our forefathers. Not until Henry VIII's time were raspberries, strawberries or cherries grown in England.

No Further Opportunity

Wife:—Why do you smoke that pipe from morning till night? Hubby:—Oh, well, that's the only time I've got. I'm asleep from night till morning.

French Will Build Aerial Lighthouse

Will Be Visible For Distance Of 200 Miles

Preparations for night flying on the airways of Europe are proceeding rapidly. The French Air Ministry has just decided upon the erection of a new lighthouse that will exceed in range and power of intensity anything that has yet been attempted in aerial or marine lighthouses.

Showing a flashing power of 1,000,000 candles it will be visible from a distance of 200 miles, and will be the shining light for night air express entering or leaving the Paris aerodrome at Le Bourget from the south. The new lighthouse will be erected on Mount Africa, a hill-top seven miles from Digne, rising to a height of 1,500 feet.

On the London airways, seven aerial lighthouses are now in operation or on the point of completion. The stretch of airway between the London air station at Croydon and the coastal air junction at Lympne, is now illuminated by four lighthouses, flashing distinctive signals. They are so arranged that an air express pilot proceeding either to or from London and the continent, will always be in sight of one of them. In addition it is proposed to make alterations in the Vorne lighthouse which is moored in mid-Channel, so that it will act as a guide not only to shipping passing it up and down the Channel, but also to aeroplanes flying above it.

Success With Poultry

Some Good Advice to Those Who Engage in Industry

During the past few years the increasing demand for eggs of a standard quality, and the high prices prevailing for this commodity, have led to an effort amongst Poultry Inspectors and specialists in poultry keeping, to stimulate this industry by advocating the use of backyards in cities and suburbs as a reliable source of maintaining a small flock of fowls. It has been shown that a decided profit can be made both in town and country, where ordinary precautions are taken in regard to feeding, cleanliness and selection.

As this product enters so much into our domestic economy, being a staple article of diet indispensable to every household, the keeping of a few hens not only tends to reduce the food budget, but provides a reliable source of new laid eggs for family use.

There is no reason why every man and every woman cannot make this industry a profitable venture, providing the necessary time is devoted to carrying out the little details which contribute so much to success. It is a mistake to think that fowls will show a balance on the credit side when left to shift for themselves even if provided with liberal quantities of food and shelter. True, the food rations are important factors, but it is no more essential than the provision of modern poultry houses, suitable runs and, above all, breeding stock from a reputable source. Having given careful consideration to these prime requisites, it might be thought that all the difficulties were overcome, but, unfortunately this is not the case. It now becomes necessary to maintain the flock at a high standard of efficiency, to follow separate species. This end, attention must be directed towards keeping the fowls free from the many diseases, which are prevalent throughout Canada, and which, unfortunately, appear to be gaining headway.

Among such diseases is tuberculosis in fowls, described in Bulletin No. 18 of the Health of Animals Branch of the Dominion Department of Agriculture at Ottawa. Blackhead, a disease particularly fatal among turkeys, is dealt with in Bulletin 17 issued from the same source. Both publications are obtainable free on request.

Hydro For Calgary

A project is on foot for the erection of a big hydro-electric centre which will supply the city of Calgary and surrounding district, as well as Drumheller Valley, some eighty-five miles northwest, with electric energy. This scheme is being developed in connection with the Calgary Power Company's plant at Kananaskis, and will provide for an auxiliary plant to be erected on the river from runs from Lake Minnewanka to the Bow River, in the Rockies.

Will Erect New Wireless Station

A new high-powered wireless station will be erected by the Dominion Government shortly on Lulu Island. This station will take care of the commercial needs of Vancouver, leaving the present Point Grey plant free to attend to the transportation and shipping business.

The more some men owe, the more they want to owe.

About the only sure way to keep a secret is not to have a secret.

May Call Another Conference To Deal With Naval Ratio

Washington.—A suggestion was made in British arms circles of the conference that it might be necessary for President Harding to call another conference to deal with that portion of the agreement on naval ratio which prohibits the further construction of warships.

The British view is that there is some doubt as to whether the provision in its present shape is sufficiently definite to prevent nations of the powers represented at the present conference from constructing warships in other countries not a party to agreements.

The British declared that, as an example, one great British shipbuilding concern has dockyards in Spain, another in Norway and others were located in other countries. Under a liberal construction of the ratio agreement, there would be nothing to prevent the utilization of these dockyards to build warships. It was said, and the present conference cannot prevent this in the absence of delegates from all of the countries where shipbuilding plants are located.

With definite capital ship ratios agreed upon by all five of the principal powers, there was revealed a feeling that limitation of auxiliary craft was largely a minor question of detail, in the settlement of which the individual desires of the various nations could be generally accepted. The view was expressed that the real business of the conference had been accomplished in the limitation of first line ships, since it is that class of war vessel which constitutes the major element of naval aggression and which at the same time entails the great bulk of public expenditure.

Grain Elevator For B.C.

Amount of Appropriation Not Less Than Two Million

Vancouver.—"A huge terminal grain elevator is to be built on Burrard Inlet by the United Grain Growers, Limited."

"Information to this effect was given to the Sun by a prominent business man in this city, who is in close touch with the United Grain Growers' head office in Winnipeg."

"The directors of that company are at present deliberating upon the amount of their appropriation for this purpose, he said. In his opinion the amount will not be much less than \$2,000,000, while the elevator will be of probably double the capacity of the government elevator which has a capacity of 1,250,000 bushels."

Judgment Reserved

Ottawa.—Judgment was reserved on the application of the Bell Telephone Company for increased rates before the railway commission. The hearing has lasted seven days and Hon. F. B. Carroll intimated at the close that it would be two or three weeks before a decision was announced.

Deposits Lost in Alberta Election. Calgary.—Opponents of at least half the Alberta Farmer candidates in the federal elections will lose their deposits. They are known to have met this fate in Red Deer, Medicine Hat, Battle River, Victoria, East Edmonton, Lethbridge, Strathcona and probably West Edmonton.

Financial Conditions Of Canada Much Improved During The Past Year

Ottawa.—In a statement handed out, Sir Henry Drayton, minister of finance, reviews the financial condition of Canada. He finds that business conditions have slowly but surely improved during the past year, and declares that Canadians may well look to the future with confidence. The statement is as follows:

Notwithstanding a year of falling values and business difficulties the finances of the country have been wonderfully maintained. The revenue, exclusive of railways—the real consolidated fund revenue—instead of falling off as in December, has increased.

The following statement shows the amount of this revenue set out for the eight months' period, i.e., down to December 1, for the last eight years:

1914, \$81,497,916.60; 1915, \$82,094,582.86; 1916, \$127,740,725.58; 1917, \$149,888,100.28; 1918, \$167,815,849.54;

W. N. U. 1400

Australia Willing To Trade With Germany

Vancouver.—The Vancouver Province carries the following cable from Sydney, N.S.W.: Premier Hughes proposes to issue a proclamation removing restrictions on trade with Germany. The new foreign postal rates from Australia are now fourpence, a big increase from the former rate of two and a halfpence. The British Empire rates are unchanged.

The Japanese Treaty

President Harding Does Not Regard Compact as Affecting Principal Islands of Japan

Washington.—President Harding was said at the White House, does not regard the four-power Pacific treaty as covering the principal island possessions in the Pacific, while the main Japanese group occupies the position of a party to the treaty rather than a possession.

The United States delegation on the other hand agreed with the representatives of the powers before the treaty was signed that the principal Japanese group were to be covered under the agreement along with all the other Pacific islands under the sovereignty of the United States, Great Britain, France and Japan.

President Harding announced in a public statement that the differences in views as to the application of the new treaty would not be permitted to embarrass the work of the Washington conference.

Toronto Has New Mayor

Thomas Church Drops Out After Holding Post for Seven Years

Toronto.—Controller Charles Alfred Maguire will be mayor of Toronto for 1922. As expected he was declared elected by acclamation. Mayor Thomas L. Church, M.P., was nominated but announced his withdrawal in a speech which expressed his gratitude to the city for its confidence in him as mayor for the past seven years.

There were eight nominations for the four places on the board of control, while 34 names were placed in nomination for the 24 aldermanic seats. Although Toronto city council is non-political, it is notable that Mayor-elect Maguire is a Liberal in politics, both provincial and federal. He is 48 years old and has been a member of the council as alderman and controller for many years. In business he is an underwriter.

Japs Book Passage Home

Washington.—In the expectation of an early completion of matters of immediate importance before the Washington conference, members of the Japanese delegation and their various staffs have tentatively booked the entire capacity of the steamer, Shinyo Maru, sailing from San Francisco, January 24, for their return to Japan.

Give your local merchants a chance. Buy at home.

Policy Maintained Over Bank Merger

Finance Minister Gave Consent Because Circumstances Justified It

Ottawa.—Sir Henry Drayton stated that so many unauthorized and incorrect statements had been attributed to him in connection with the proposed sale of the assets of the Merchants Bank to the Bank of Montreal, that he felt he ought to make a brief statement. One of the statements attributed to him is that he bank's capital was impaired. Sir Henry said: "I have refused to discuss and have never discussed the details of this situation. I have simply stated that the policy of the department has been maintained. It is against consolidations and mergers where banks can and ought to carry on, and that content to a merger is justified only when a situation has arisen which in the public interest and the interest of depositors and customers and the general financial situation renders the acquisition of a weaker bank by a stronger one advisable."

Canadian Memorials In France

Colonel Gagnon Reports Work Is Progressing Favorably

New York.—Colonel Emile Gagnon, of Montreal, chief paymaster of the Canadian troops during the war, has arrived in New York from France on the steamer Zealand.

Col. Gagnon has spent a year and a half on the battlefields in charge of the Canadian memorials which are to be erected at a number of the places made memorable by the heroic work of the soldiers from the Dominion.

One Canadian memorial was recently unveiled at Vimy Ridge. Col. Gagnon reports that the work on the others is progressing favorably.

Give Machinery For Raw Material

Proposal Made to Soviet by International Harvester Company

Moscow.—The Vestnik newspaper says the International Harvester Company has proposed to the Central Soviet Co-operative Committee the delivery of sufficient agricultural machinery and binder twine to supply the needs of Siberian agriculture in exchange for raw materials at the disposal of the co-operative committee of the province of Yenakay, East Siberia.

Four Majority In Ont. Government

Toronto.—Officials of the Ontario Government figure out a majority of four members of the Legislature over all opposition as a result of the polling in the by-election in North Oxford, when D. M. Ross, the government candidate, was elected. This was a further gain from the Liberal column.

Liquor In Transit

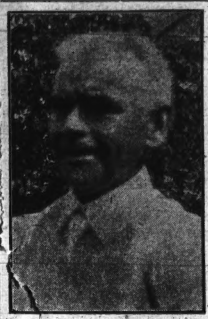

Windsor, Ont.—Bottles of liquor having broken seals can be carried from one lawful place to another, providing that the seals are not broken while the liquor is in transit, Judge Gundy ruled in the local police court in dismissing a charge against Joseph East Drouillard, Ford, Ont., on a charge of having liquor in an unlawful place.

Be fair to your local merchants. Ask to see his goods and compare prices before sending your money to the mail order houses. You will find that they pay.

WILL IT BE AN OPERATION OR A MANICURE?

WESTERN EDITORS

J. J. White, Publisher of The Outlook, Outlook, Sask.

Prepare For Royal Wedding

Westminster Abbey to be Scene of Interesting Ceremony

London.—It is reliably reported that the wedding of Princess Mary, daughter of King George and Queen Mary, to Viscount Lascelles, will take place in Westminster Abbey. The ceremony will probably be performed some time between February 20 and April 1.

It is announced that the Earl of Eltham, nephew of Queen Mary, is betrothed to Dorothy Hastings, a niece of the Earl of Huntingdon. The Earl of Eltham was born in October, 1885. He is the oldest son of the Marquis of Cambridge.

Toast New State

Appeal Made at a Dinner in London For Irish Unity

London.—A toast to the Irish Free State, the first on record, was given at a dinner of the Society of St. Patrick. It was proposed by General Sir Hubert De La Poer Gough, commander of the British Fifth Army during the war, and an Irishman by birth. General Gough appealed to all Englishmen and Irishmen to clasp hands in friendship.

Miss Collins, a sister of Michael Collins, responded to General Gough, saying she hoped Irish unity would be achieved.

The dinner gave three cheers for Mr. Collins.

Jap Steamer In Trouble

Portland, Ore.—The Japanese steamer Texas Maru from Portland, Dec. 15, for Kobe reported by wireless that she was leaking badly and had lost two men overboard as a result of a storm encountered 900 miles off the mouth of the Columbia River. She had a crew of 48 and a mixed cargo valued at \$335,000.

\$20,000 Organ Burns

Calgary.—An almost new organ in Trinity Methodist Church, Calgary, was destroyed by fire and water, although the building itself escaped with a \$5,000 scorching. Electric wires in the organ loft are blamed. The insurance was \$5,000.

Be fair to your local merchants. Ask to see his goods and compare prices before sending your money to the mail order houses. You will find that they pay.

Irish Debate Is Adjourned After Lively Tilt Between Factions

France Accepts Naval Agreement

Acceptance of U.S. Proposal With Certain Reservations

Washington.—Acceptance by France with reservation in the United States proposal of 175,000 tons in capital ships each for France and Italy, swept the arms conference forward to its next major problem—the submarine issue. Italy was stated officially, has already accepted the 175,000 ton figure, conditioned only on its acceptance by France.

Formal announcement of French acceptance and details of French reservations apparently were reserved by the sub-committee of 15 for the full naval committee of the conference. The sub-committee did break its silence sufficiently, however, to publish the messages exchanged by Secretary Hughes and Premier Briand which led up to the action of the French delegation. The messages were read and discussed by the sub-committee, but the official communiqué disclosed no more than the texts of the cables.

The premier's message showed that reservations attached to acceptance of the 175,000 capital ship tonnage had to do with "light cruisers, torpedo boats and submarines." This has served to bring the conference to a standstill until the submarine issue can be solved, when the five-power capital ship agreement will be completed automatically. It is assumed the full naval committee was called to lay out a programme for the discussion of submarines and anti-submarine craft, as the two are interwoven, in French and British opinion. This implies that the auxiliary craft elements of the plan must be shaped into agreement before the conference committees can return to ratify the capital ship agreement.

Unemployed Of Calgary Organize

Demand Work at Union Wages and Abolition of Charity Board

Calgary.—Organization of the unemployed was effected at a mass meeting of over 500 held here. A central council was named, including representatives of the trades and labor council, and other similar bodies, with a proportion of two to one of unemployed.

A firm attempt will be made to secure alleviation for the present distressful conditions now existing in the city in which 3,000 are out of employment. Determination to pursue this aim by peaceable means to bring about their wishes was expressed. The gathering demanded work at union wages, or the equivalent in cash, and the abolition of the charity board which has been handling the relief work. Unemployed in other cities are being asked to cooperate.

Arraigns Lloyd George

Dublin.—Mary MacSwiney, sister of the late mayor of Cork, who died in a hunger strike in a prison in England last year, severely arraigned Prime Minister Lloyd George in speaking against the Anglo-Irish treaty in the Dail Eireann. She characterized the British Prime Minister as "an unscrupulous scoundrel."

Federal Government Will Be Requested To Restore Wheat Board

Winnipeg.—Definite steps toward securing re-establishment of the Canadian Wheat Board were taken here when the Canadian Council of Agriculture adopted a resolution presented by J. B. Musselman, secretary Saskatchewan Grain Growers' Association, urging the Federal Government to "re-instate the Canadian Wheat Board to handle the wheat crop of 1922 and until such times as world conditions again become normal."

This resolution will be submitted to the three annual conventions of the farmers' organizations in the western provinces for approval in January, and will be further dealt with at the annual meeting of the Canadian Council of Agriculture next March. In recommending that the resolution go before the various farmer associations, the council desired to have an expression of opinion

Dublin.—The Dail Eireann by vote of 77 to 44, decided on a motion submitted by Michael Collins, to adjourn further debate on the Irish agreement until Tuesday, January 2. It was not the motion itself, but an amendment to the motion on which the vote was actually taken. The amendment introduced and seconded by opponents of the agreement, called for continuing sittings day and evening until a division was taken on the treaty's ratification or rejection.

The defeat of the amendment automatically decided the motion. With few exceptions, so far as could be observed, the vote followed the party line of those favoring or opposing the treaty.

Nobody believes, of course, that if a vote had been taken on the treaty itself the majority would have been so great as the vote on the adjournment motion gave its supporters, but there is no doubt in the minds of those who have been following the debates carefully that this vote roughly approximates the sentiments for and against the treaty. This is denied by some of the opponents of the treaty, who assert that it was not a fair test, as many of the deputies on both sides, especially the country members, disliked the idea of the debate continuing through Christmas and voted for the adjournment in order that they might get home for the holidays.

In fact, Countess Markievicz, one of the strongest opponents of the treaty, seconded Mr. Collins' proposal, apparently having in mind as indicated by her satirical "seconding" speech, the possibility of the debate continuing through Christmas Day and night and overlooking the possibility of a party division on the motion.

Mr. Collins showed eagerness to rush his motion through to a quick decision and he was checked by Mr. Milroy, who interrupted the taking of the vote to have the question cleared up as to whether deputies representing two constituencies should have two votes. Mr. Collins declared that he would not quarrel with the vote of Ireland decided on the question of a technicality.

When it became apparent that there was to be a party lineup on the vote, the atmosphere became tense with excitement. Many of the speakers failed to understand the significance of the proceedings and the greatest bewilderment was manifested upon the announcement of the result of the vote.

Mr. de Valera's remarks were witty and grim when the figures were announced. Considerable censure was shown by Collins and his adherents. Desmond Fitzgerald, "minister of propaganda," who supports the agreement, said he believed that more moderate opponents of the treaty voted for adjournment, indicating a majority for the treaty of 13.

Manitoba Shows Deficit For Year

Winnipeg.—Manitoba public accounts for 1921 show a deficit of \$650,000 which presents a serious problem for the legislature late in January. This is the largest deficit shown for some years. Increased cost of maintenance of government, mothers' allowances and aids to agriculture are largely responsible for surpluses of past years being wiped out. It was stated.

On this question from the farmers in conversation which could be thus obtained and acted upon in ample time to have the necessary legislation enacted at the forthcoming session of parliament.

In presenting the resolution, Mr. Musselman said there was an overwhelming body of opinion among the farmers of Saskatchewan in favor of the re-establishment of the wheat board, and he stated Saskatchewan represented 60 per cent of the wheat producing area of western Canada.

A resolution urging the new Federal administration to watch the action of the imperial authorities in connection with the removal of the embargo on cattle, and if the occasion presented itself to press the Government of the British minister of agriculture's promise of 1917 that the embargo would be removed, was also unanimously adopted.

L. Anne's Sunday School Christmas Tree

The children of St. Anne's Sunday School held their annual Christmas tree at St. Anne's hall on Wednesday afternoon, when over one hundred children were made recipients of bags of shavings from Santa Claus. A large number of parents were present, and all enjoyed the programme of recitations, singing, etc., rendered by the children.

Altar Boys Banquetted

The Altar Boys of St. Anne's Catholic church were the guests of their pastor, Father Costman, on Tuesday night at St. Anne's parish hall. A splendid programme of speeches, recitations,

singing, etc., was rendered by the twelve altar boys. Supper was served in a capable manner by the sisters of the boys who appeared in full uniform for the occasion.

Mr. W. Dool spoke in behalf of the altar boys, while Mr. Frank McLeod represented the new staff. Both displayed considerable ability in the oratorical art.

The hall was beautifully and fittingly decorated.

Midnight Mass at St. Anne's Church

The annual Christmas midnight Mass at St. Anne's Catholic church was largely attended and impressive. The pastor, Rev. Father Costman, conducted the service, ably assisted by the choir. The church was very fittingly decorated for the occasion.

We regret that space will not permit publishing a full report of a most enjoyable Christmas entertainment held at the Passburg school house on December the 23rd. A splendid program was rendered in a very capable manner. A large number of parents of the children were present.

NOT SO IN BLAIRMORE

A visitor to Blairmore this week told The Enterprise that times are so hard, business so rotten in many of the small towns in the Western States, that when you said "Merry Christmas" to a man he turned around and looked at you to see if you were making fun of him, or were in earnest.

WORLD'S MOST SUCCESSFUL MEDICAL STUDENT

The Vancouver Province of recent date contains the following announcement from London, England:

"A Vancouver man holds the proud distinction of being the youngest Fellow in the British Empire of the Royal College of Surgeons, as the result of recent examinations.

"Dr. L. H. Appleby, formerly of the Vancouver general hospital, heads the list of twenty-six successful candidates out of the 113 that presented themselves for this rigorous test of the world's greatest medical college.

"After graduating from Queen's University, Dr. Appleby entered the Vancouver general hospital where he acted as an interne under Dr. M. T. McEachern, general superintendent. He continued in this capacity for more than two years before going to England, where he is now one of the house doctors in the London hospital. Just before leaving Vancouver, Dr. Appleby married Miss Lowther, one of the staff nurses at the general hospital.

"I am delighted to hear of his great success," said Dr. McEachern, when acquainted with the news. "Dr. Appleby was one of the most brilliant young men I have ever had working here, and I predict a splendid future for him."

Dr. Appleby is a product of the Blairmore school, where he was a pupil about eighteen years ago, in the old red schoolhouse, now almost obsolete. It is a source of pleasure to all his schoolmates of that time and others who have become acquainted with him to learn of his great success. His father, Mr. Thomas Appleby, was one of the real pioneers of the Crow's Nest Pass and still a resident of Blairmore, and though quite up in years, it seems that the news of the success of his son chokes tears off his age.

BLAIRMORE TWENTY-FOUR YEARS AGO

Acting Mayor Joseph Montalbetti, who is one of the first permanent residents of Blairmore, grew reminiscent this Christmas week, and gave The Enterprise a brief word picture of Blairmore 24 years ago, and of his first Christmas here, that year.

Mr. Montalbetti came to the present town of Blairmore in March, 1898, 24 years ago in March, next. He was sent here by the C.P.R. to be first section foreman running east to Burnis, at that time. His brother, Felix—Montalbetti, came three months before him, and was section foreman on the west section. At that time Blairmore was known as Siding No. 10, and the entire Crow's Nest line of the C.P.R. was still in charge of the construction department, having just been completed.

The only buildings on the site of the present Blairmore, at that time, were the C.P.R. station building, which has been changed by a few minor additions, since then, and a log cabin down on the present premises of the cement plant.

Mr. E. Lyons, now of Calgary, was station agent at that time, and was appointed first post-master in Blairmore. The post office was kept in the station building at first. Later on Mr. Lyons and Joseph Montalbetti went into partnership in the mercantile business, built the first log store building in Blairmore on what is now the Evans property on the south side of the track, and kept the post office there.

The present site of Blairmore was a small wilderness of jack pine and poplar. The Fort Steele pack trail ran along the north side of the river, just under the present cemetery. There was a beautiful, cold spring on the river bank, near what is now the Sargent property, where the section men went summer evenings for their drinking water. Mr. Montalbetti and his brother, also out an opening in the river bank about where the cement bridge of the West Canadian Collieries is now situated, and directed a small stream of water from the river, through an abandoned channel, to the rear of Capt. Beebe's present offices, so they would not have to carry water for domestic use at the station, so far.

The McLaren sawmill was built on its present site west of town, during the summer of 1898, the year in which Mr. Montalbetti came. Before that season, the same company had driven their logs down the river to Macleod, so they would not have to carry water for domestic use at the station, so far.

The first name given Blairmore station, after the operating department took over the line, was Sulphur Springs, on account of the springs at Frank. These springs had been used as rheumatic baths, long before the railroad came through. There was a large two storey log house for accommodation of guests, and also a log bath house at the springs, and Robert Connelly, now of Bellevue, was one of the first managers of the springs.

Later on the name of the station was changed to Blairmore and the present townsite was laid out.

Mr. Montalbetti was born in the province of Milano, Italy, and carries in his character the sunny cheerfulness of his native land. He came to Canada in 1888 and worked for the C.P.R. in the east, coming to Blairmore from Riley, a small station near old Rat Portage, now Kenora. He has been a resident of Blairmore continuously since coming here. He is acting mayor of the town in the absence of Mayor Archie McLeod, and is happy and contented in the knowledge of having lived a useful, unselfish life, in the community of his choice, in whose activities he has ever been conscientiously engaged.

On that Christmas night 23 years ago, the weather was colder, with more snow than this year. The few inhabitants of Siding No. 10 did not have the amusements of the up-to-date Blairmore of today.

The only moving picture show, was the stars performing their silent evolutions overhead and the only orchestra in that far day, was the coyote howling among the jack pines.

We Extend Hearty Greetings for the Year 1922 to all our Friends and Customers

We respectfully solicit the same excellent patronage during the New Year that you have given us during 1921.

BOY'S PARLIAMENT IN SESSION ALL WEEK

With a regularly elected parliament of 60 members, a speaker of the house, a leader of the opposition and occupying seats in the provincial hall, at Edmonton, the Tuxis and Trail Rangers Boys' parliament has been in session in Edmonton all week. The parliament was opened on Wednesday morning and will adjourn on Friday evening, after three days discussion of subjects dealing with this province-wide boys' organization.

Robert Barnhill, a well known young man of Blairmore, was elected to represent the Crow's Nest Pass district and left for Edmonton on Monday night to be in attendance. Beginning at the very bottom of the political program, the boys have nominated their candidates, both government and opposition, and carried through the election in the different constituencies, just as their elders have done (except that the boys have done away with mud-slinging and abuse in their campaigns), and when the 60 members took their seats in the parliament buildings, they had passed through every detail of organizing a legal legislative body.

Upon assembling last Wednesday they elected a speaker, or leader of the government, John Robin Davidson, of McDougall church, Edmonton, having been chosen leader of the government. Last year he was leader of the opposition, but the political complexion of the boys having changed during the year, the opposition leader is now in the speaker's chair.

Rev. W. T. Young, of the Central Union church, Blairmore, has taken a deep interest in this movement, and deserves a large part of the credit for the successful carrying out of the boys' program in this district. Upon the return of Robert Barnhill from Edmonton, it is hoped by Rev. Young that he will be induced to address the congregation of Union church on the workings of the Boys' Parliament.

The idea of holding this parliament is to give the boys of the Tuxis and Trail Ranger organization a practical lesson in government and to this end no detail of a regular provincial election is left out, in selecting their members, and the boys have received a practical object lesson in making laws which it is hoped will make them more useful and active citizens in after years.

Final Meeting 1921 Council

The closing session of the 1921 council was held on Tuesday night, when Councilors Montalbetti, Piccarillo, Gillis, McVie, and Forriest were present, councilor Montalbetti presiding as deputy mayor.

Several small accounts were given consideration, as well as some correspondence.

Only one of the new-eleets was present to help disburse the returning councilors.

Mrs. Edith Rockefeller McCormick, only daughter of John D. Rockefeller, is suing for divorce in Chicago. She has resided in Switzerland for the past eight years.
